### About Gevo

Gevo is a next generation "low-carbon" fuel company focused on the development and commercialization of renewable alternatives to petroleum-based products. Low-carbon fuels reduce the carbon intensity, or the level of greenhouse gas emissions, compared to standard fossil-based fuels across their lifecycle. The most common low-carbon fuels are renewable fuels. Gevo is focused on the development and production of mainstream fuels like gasoline and jet fuel using renewable feedstocks that have the potential to lower greenhouse gas emissions at a meaningful scale and enhance agricultural production, including food and other related products. In addition to serving the low-carbon fuel markets, through Gevo's technology, Gevo can also serve markets to produce chemical intermediate products for solvents, plastics, and building block chemicals. ### About *alphaDIRECT* Advisors

*alphaDIRECT* Advisors, a division of EnergyTech Investor, LLC, is a Publishing and Investor Intelligence firm that creates and implements digital content and programs to help investors better understand a company's key drivers including industry dynamics, technology, strategy, outlook, and risks. *alphaDIRECT*'s expertise encompasses a variety of sectors including EnergyTechnology, Cleantech, Emerging Growth, Industrial and ESG (Environmental, Social and Governance). *alphaDIRECT* was founded by Wall Street veteran and research analyst, Mr. Shawn Severson, after seeing a significant shift in the investment industry that resulted in less fundamental research conducted on small cap companies and a significant decline in information available to all investors. *alphaDIRECT*'s mission is to bridge the information gap and engage companies and investors in a way that opens information flow and analytical insights.
