Gevo to Report First Quarter 2020 Financial Results on May 12, 2020

ENGLEWOOD, Colorado – April 16, 2020 – Gevo, Inc. (NASDAQ: GEVO)

announced today that it will host a conference call on May 12, 2020 at 4:30 p.m. EDT (2:30 p.m. MDT) to report its financial results for the first quarter ended March 31, 2020 and provide an update on recent corporate highlights.

To participate in the conference call, please dial 1 (833) 729-4776 (inside the U.S.) or 1 (830) 213-7701 (outside the U.S.) and reference the access code 9973468# or through the event weblink <https://edge.media-server.com/mmc/p/u2xy5aup>.

A replay of the call and webcast will be available two hours after the conference call ends on May 12, 2020. To access the replay, please dial 1 (855) 859-2056 (inside the U.S.) or 1 (404) 537-3406 (outside the U.S.) and reference the access code 9973468#. The archived webcast will be available in the Investor Relations section of Gevo's website at www.gevo.com.

About Gevo

Gevo is commercializing the next generation of jet fuel, gasoline and diesel fuel with the potential to achieve zero carbon emissions and address the market need of reducing greenhouse gas emissions with sustainable alternatives. Gevo uses low-carbon renewable resource-based carbohydrates as raw materials, and is in an advanced state of developing renewable electricity and renewable natural gas for use in production processes. As a result, Gevo is able to produce low-carbon fuels with substantially reduced carbon intensity (as measured by the level of greenhouse gas emissions compared to standard petroleum fossil-based fuels across their lifecycle). Gevo's products perform as well or better than traditional fossil-based fuels in infrastructure and engines, but with substantially reduced greenhouse gas emissions. In addition to addressing the environmental problems of fossil-based carbon fuels, Gevo's technology also enables certain plastics, such as polyester, to be made with more sustainable ingredients. Gevo's ability to penetrate the growing low-carbon fuels market depends on the price of oil and the value of abating carbon emissions that would otherwise increase greenhouse gas emissions. Gevo believes that its proven, patented, technology

that enables the use of a variety of low-carbon sustainable feedstocks to produce price-competitive, low carbon products, such as jet fuel, gasoline components like isooctane and isobutanol and diesel fuel, yields the potential to generate project and corporate returns that justify the build-out of a multi-billion dollar business.
