Gevo Reports Third Quarter 2021 Financial Results

Gevo to Host Conference Call Today at 4:30 p.m. EST/2:30 p.m. MST

ENGLEWOOD, Colo. – November 10, 2021 - Gevo, Inc. (NASDAQ: GEVO) today announced financial results for the third quarter of 2021 and recent corporate highlights.

Recent Corporate Highlights

- On October 25, 2021, Gevo announced that it signed a memorandum of understanding ("MoU") with Archer-Daniels-Midland Company ("ADM") to support the production of sustainable aviation fuel ("SAF") and other low carbon-footprint hydrocarbon fuels. The MoU contemplates the production of both ethanol and isobutanol that would then be transformed into renewable low carbon-footprint hydrocarbons using Gevo's processing technology and capabilities.
- On October 12, 2021, Gevo announced that it entered into an agreement with Axens North America, Inc. ("Axens") that establishes a strategic alliance aimed at accelerating the commercialization of sustainable ethanol-to-jet projects in the United States. The production technology to convert ethanol to hydrocarbons has been exclusively licensed to Gevo in the United States by Axens and incorporates more than 60 patents, as well as proprietary production technology and know-how.
- On October 7, 2021, Gevo announced that it engaged Kiewit Energy Group Inc. to lead the Front End Engineering Design ("FEED") effort for its Net-Zero 1 Project in Lake Preston, South Dakota.
- On September 23, 2021, Gevo announced that it entered into an asset purchase agreement with Butamax Advanced Biofuels LLC ("Butamax") and its affiliate, Danisco US Inc., to acquire certain patents, leaving Gevo as the only entity with full rights to sublicense the entire Gevo/Butamax isobutanol and isobutanol derivatives patent estate in the fields of fuels, isooctane, industrial chemicals, isobutylene, oligomerized isobutylene, and para-xylene.
- On September 9, 2021, Gevo announced that it signed a letter of intent with Chevron U.S.A. Inc. ("Chevron"), a subsidiary to Chevron Corporation, to jointly invest in building and operating one or more new facilities that would process inedible corn to produce sustainable aviation fuel, which can lower the lifecycle carbon intensity of fuels used in the aviation industry.

2021 Third Quarter Financial Highlights

- Ended the quarter with cash, cash equivalents, restricted cash and marketable securities of \$522.4 million compared to \$567.2 million as of the end Q2 2021

- Revenue of \$0.1 million for the quarter compared to \$0.2 million in Q3 2020
- Loss from operations of (\$14.7) million for the quarter compared to (\$6.1) million in Q3 2020
- Non-GAAP cash EBITDA loss¹ of (\$9.3) million for the quarter compared to (\$4.0) million in Q3 2020
- Net loss per share of (\$0.07) for the quarter compared to (\$0.09) in Q3 2020
- Non-GAAP adjusted net loss per share² of (\$0.07) for the quarter compared to (\$0.08) in Q3 2020

Commenting on the third quarter of 2021 and recent corporate events, Dr. Patrick R. Gruber, Gevo's Chief Executive Officer, said "We've made great progress; the pieces are coming together. We are seeing demand for our products increase and we are establishing alliances that, we expect, will help us accelerate growth beyond our Net-Zero 1 project. We are pleased that Net-Zero 1 appears to be on track, too. Overall, a very good quarter."

Third Quarter 2021 Financial Results

Revenue for the three months ended September 30, 2021 was \$0.1 million compared with \$0.2 million in the same period in 2020.

During the three months ended September 30, 2021, hydrocarbon revenue was \$0.1 million, approximately the same as during the three months ended September 30, 2020. Gevo's hydrocarbon revenue is comprised of sales of sustainable aviation fuel and renewable premium gasoline.

During the three months ended September 30, 2021 and 2020, no significant revenue was derived at Gevo's production facility in Luverne, Minnesota (the "Luverne Facility") related to ethanol sales and related products.

As a result of COVID-19 and in response to an unfavorable commodity environment, Gevo terminated its production of ethanol and distiller grains in March 2020. As previously announced, the Luverne Facility is currently producing isobutanol that will be used as a feedstock for us to produce SAF and renewable premium gasoline to fulfill existing sales contracts. We also expect to utilize some of the isobutanol produced to develop certain isobutanol specialty markets. These renewable hydrocarbons will be produced at Gevo's demonstration plant at the South Hampton Resources, Inc. facility in Silsbee, Texas (the

¹ Cash EBITDA loss is a non-GAAP measure calculated by adding back depreciation and amortization and non-cash stock-based compensation to GAAP loss from operations. A reconciliation of cash EBITDA loss to GAAP loss from operations is provided in the financial statement tables following this release.

² Adjusted net loss per share is a non-GAAP measure calculated by adding back non-cash gains and/or losses recognized in the quarter due to the changes in the fair value of certain of our financial instruments, such as warrants, convertible debt and embedded derivatives, to GAAP net loss per share. A reconciliation of adjusted net loss per share to GAAP net loss per share is provided in the financial statement tables following this release.

“South Hampton Facility”).

Cost of goods sold was \$3.5 million for the three months ended September 30, 2021, compared with \$2.3 million in the same period in 2020. We began producing isobutanol during the three months ended September 30, 2021. Cost of goods sold included \$2.3 million associated with the maintenance of the Luverne and South Hampton Facilities and approximately \$1.2 million in depreciation expense for the three months ended September 30, 2021.

Gross loss was (\$3.3) million for the three months ended September 30, 2021, compared with a (\$2.1) million gross loss in the same period in 2020.

Research and development expense increased by approximately \$0.7 million during the three months ended September 30, 2021, compared with the three months ended September 30, 2020, due primarily to an increase in personnel costs related to increased headcount and stock-based compensation and consulting expenses as we work to improve our process for growing and fermenting yeast strains.

Selling, general and administrative expense increased by approximately \$6.4 million during the three months ended September 30, 2021, compared with the three months ended September 30, 2020, due primarily to increases in personnel costs related to increased headcount and stock-based compensation, increased professional fees, higher costs for insurance and increased consulting fees related to documenting our compliance with Section 404(b) of the Sarbanes-Oxley Act.

Preliminary stage project costs related to our renewable natural gas (“RNG”) and Net-Zero projects were approximately the same during the three months ended September 30, 2021 as they were for the three months ended September 30, 2020. During the three months ended September 30, 2021, the preliminary stage project costs were primarily related to consulting for preliminary engineering costs and for personnel expenses to support the growth in business activity at our Net-Zero projects. During the three months ended September 30, 2020, the preliminary stage project costs were primarily related to consulting for preliminary engineering costs and for personnel expenses to support the growth in business activity at our RNG project. During the three months ended September 30, 2021, we began capitalizing our Net-Zero 1 project costs after completing certain front-end engineering studies and determining it was probable that we would build Net-Zero 1 in Lake Preston, SD.

Loss from operations in the three months ended September 30, 2021 was (\$14.7) million, compared with a (\$6.1) million loss from operations in the same period in 2020.

Non-GAAP cash EBITDA loss³ in the three months ended September 30, 2021 was (\$9.3) million, compared with a (\$3.9) million non-GAAP cash EBITDA loss in the same

³ Cash EBITDA loss is a non-GAAP measure calculated by adding back depreciation and amortization and non-cash stock-based compensation to GAAP loss from operations. A reconciliation of cash EBITDA loss to GAAP loss from operations is provided in the financial statement tables following this release.

period in 2020.

Interest expense decreased by \$0.4 million in the three months ended September 30, 2021 as compared to the same period in 2020, due to the conversion of all Gevo's 12% convertible senior secured notes due 2020/2021 to common stock during 2020.

Other income during the three months ended September 30, 2021 was \$0.4 million, an increase of \$0.4 million compared to the three months ended September 30, 2020, primarily due to income received on marketable securities and restricted cash.

Gevo incurred a net loss for the three months ended September 30, 2021 of (\$14.4) million, compared with a net loss of (\$6.8) million during the same period in 2020. Non-GAAP adjusted net loss⁴ for the three months ended September 30, 2021 was (\$14.4) million, compared with a non-GAAP adjusted net loss of (\$6.5) million during the same period in 2020.

Cash, cash equivalents, restricted cash and marketable securities at September 30, 2021 totaled \$522.4 million compared to \$567.2 million as of the end Q2 2021.

Webcast and Conference Call Information

Hosting today's conference call at 4:30 p.m. EST (2:30 p.m. MST) will be Dr. Patrick R. Gruber, Chief Executive Officer, L. Lynn Smull, Chief Financial Officer, Dr. Paul Bloom, Chief Carbon and Innovation Officer, and Geoffrey T. Williams, Jr., Vice President - General Counsel & Secretary. They will review Gevo's financial results and provide an update on recent corporate highlights.

To participate in the conference call, please dial 1 (833) 729-4776 (inside the U.S.) or 1 (830) 213-7701 (outside the U.S.) and reference the access code 4248806# or through the event weblink <https://edge.media-server.com/mmc/p/j9mothsa>.

A replay of the call and webcast will be available two hours after the conference call ends on November 10, 2021. To access the replay, please dial 1 (855) 859-2056 (inside the U.S.) or 1 (404) 537-3406 (outside the U.S.) and reference the access code 4248806#. The archived webcast will be available in the Investor Relations section of Gevo's website at www.gevo.com.

About Gevo

Gevo's mission is to transform renewable energy and carbon into energy-dense liquid hydrocarbons. These liquid hydrocarbons can be used for drop-in transportation fuels such as gasoline, jet fuel, and diesel fuel, that when burned have potential to yield net-zero greenhouse gas emissions when measured across the full lifecycle of the products. Gevo uses low-carbon renewable

⁴ Adjusted net loss is a non-GAAP measure calculated by adding back non-cash gains and/or losses recognized in the quarter due to the changes in the fair value of certain of our financial instruments, such as warrants, convertible debt and embedded derivatives, to GAAP net loss. A reconciliation of adjusted net loss to GAAP net loss is provided in the financial statement tables following this release.

resource-based carbohydrates as raw materials, and is in an advanced state of developing renewable electricity and renewable natural gas for use in production processes, resulting in low-carbon fuels with substantially reduced carbon intensity (the level of greenhouse gas emissions compared to standard petroleum fossil-based fuels across their lifecycle). Gevo's products perform as well or better than traditional fossil-based fuels in infrastructure and engines, but with substantially reduced greenhouse gas emissions. In addition to addressing the problems of fuels, Gevo's technology also enables certain plastics, such as polyester, to be made with more sustainable ingredients. Gevo's ability to penetrate the growing low-carbon fuels market depends on the price of oil and the value of abating carbon emissions that would otherwise increase greenhouse gas emissions. Gevo believes that its proven, patented, technology enabling the use of a variety of low-carbon sustainable feedstocks to produce price-competitive low carbon products such as gasoline components, jet fuel, and diesel fuel yields the potential to generate project and corporate returns that justify the build-out of a multi-billion-dollar business.

Gevo believes that Argonne National Laboratory GREET model is the best available standard of scientific based measurement for life cycle inventory or LCI.

Forward-Looking Statements

Certain statements in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements relate to a variety of matters, including, without limitation, Gevo's business development activities, Gevo's Net-Zero Projects, Gevo's RNG Project, Gevo's ability to consummate the transactions with ADM, Axens and/or Chevron, the engineering and design work for the Net-Zero 1 Project, Gevo's ability to commercialize sustainable ethanol-to-jet projects, Gevo's offtake agreements, Gevo's plans to develop its business, Gevo's ability to successfully construct and finance its operations and growth projects, Gevo's ability to achieve cash flow from its planned projects, the ability of Gevo's products to contribute to lower greenhouse gas emissions, particulate and sulfur pollution and other statements that are not purely statements of historical fact. These forward-looking statements are made based on the current beliefs, expectations and assumptions of the management of Gevo and are subject to significant risks and uncertainty. Investors are cautioned not to place undue reliance on any such forward-looking statements. All such forward-looking statements speak only as of the date they are made, and Gevo undertakes no obligation to update or revise these statements, whether as a result of new information, future events or otherwise. Although Gevo believes that the expectations reflected in these forward-looking statements are reasonable, these statements involve many risks and uncertainties that may cause actual results to differ materially from what may be expressed or implied in these forward-looking statements. For a further discussion of risks and uncertainties that could cause actual results to differ from those expressed in these forward-looking statements, as well as risks relating to the business of Gevo in general, see the risk disclosures in the Annual Report on Form 10-K of Gevo for the year ended December 31, 2020 and in subsequent reports on Forms 10-Q and 8-K and other filings made with the U.S. Securities and Exchange Commission by Gevo.

Non-GAAP Financial Information

This press release contains financial measures that do not comply with U.S. generally accepted accounting principles (GAAP), including non-GAAP cash EBITDA loss, non-GAAP adjusted net loss and non-GAAP adjusted net loss per share. Non-GAAP cash EBITDA loss excludes depreciation and amortization and non-cash stock-based compensation. Non-GAAP adjusted net loss and adjusted net loss per share excludes non-cash gains and/or losses recognized in the quarter due to the changes in the fair value of certain of Gevo's financial instruments, such as warrants, convertible debt and embedded derivatives. Management believes these measures are useful to supplement its GAAP financial statements with this non-GAAP information because management uses such information internally for its operating, budgeting and financial planning purposes. These non-GAAP financial measures also facilitate management's internal comparisons to Gevo's historical performance as well as comparisons to the operating results of other companies. In addition, Gevo believes these non-GAAP financial measures are useful to investors because they allow for greater transparency into the indicators used by management as a basis for its financial and operational decision making. Non-GAAP information is not prepared under a comprehensive set of accounting rules and therefore, should only be read in conjunction with financial information reported under U.S. GAAP when understanding Gevo's operating performance. A reconciliation between GAAP and non-GAAP financial information is provided in the financial statement tables below.
