### FORM 8-K

## CURRENT REPORT

Pursuant to Section 13 or 15(d) of the Securities Exchange Act of 1934

Date of Report (Date of earliest event reported): August 10, 2023

## Gevo, Inc.

(Exact name of registrant as specified in its charter)

**Delaware**(State or other jurisdiction of incorporation)

001-35073

(Commission File Number)

**87-0747704** (IRS Employer Identification No.)

## 345 Inverness Drive South, Building C, Suite 310 Englewood, CO 80112

(Address of principal executive offices) (Zip Code)

Registrant's telephone number, including area code: (303) 858-8358

N/A

(Former name or former address, if changed since last report)

Check the appropriate box below	if the Form 8-K filing is	intended to simultaneousl	ly satisty the filing of	bligation of the registran	it under
any of the following provisions:					

	□ Soliciting material pursuant to Rule 14a-12 under the Exchange Act (17 CFR 240.14a-12) □ Pre-commencement communications pursuant to Rule 14d-2(b) under the Exchange Act (17 CFR 240.14d-2(b))												
Securi	Securities registered pursuant to Section 12(b) of the Act:												
	Title of each class Trading symbol Name of exchange on which registered												
Cor	nmon Stock, par value \$0.01 per share	GEVO	The Nasdaq Stock Market LLC										
	Indicate by check mark whether the registrant is an emerging growth company as defined in Rule 405 of the Securities Act of 1933 (§230.405 of this chapter) or Rule 12b-2 of the Securities Exchange Act of 1934 (§240.12b-2 of this chapter).												
Emerg	Emerging growth company □												
	If an emerging growth company, indicate by check mark if the registrant has elected not to use the extended transition period for complying with any new or revised financial accounting standards provided pursuant to Section 13(a) of the Exchange Act.												

## **Item 2.02. Results of Operations and Financial Condition.**

On August 10, 2023, Gevo, Inc. (the "Company") issued a press release announcing the Company's financial results for the quarter ended June 30, 2023. A copy of this press release is furnished as Exhibit 99.1 to this Current Report on Form 8-K and is incorporated herein by reference.

The information in this Item 2.02 shall not be deemed "filed" for purposes of Section 18 of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), nor shall it be deemed incorporated by reference in any filing under the Securities Act of 1933, as amended, or the Exchange Act, except as shall be expressly set forth by specific reference in such filing.

### Item 9.01. Financial Statements and Exhibits.

(d) Exhibits.

Exhibit No.	Description
99.1	Earnings press release, dated August 10, 2023
104	Cover Page Interactive Data File (Formatted as Inline XBRL)

## **SIGNATURES**

Pursuant to the requirements of the Securities Exchange Act of 1934, the registrant has duly caused this report to be signed on its behalf by the undersigned hereunto duly authorized.

GEVO, INC.

Date: August 10, 2023 By: /s/ Edwin Cabell Massey

Edwin Cabell Massey Associate General Counsel and Assistant Secretary

## **Gevo Reports Second Quarter 2023 Financial Results**

Gevo to Host Conference Call Today at 4:30 p.m. ET

**ENGLEWOOD, Colo.** – **August 10, 2023** - Gevo, Inc. (NASDAQ: GEVO) ("Gevo", the "Company", "we", "us" or "our") today announced financial results for the second quarter of 2023 and recent corporate highlights.

### **Recent Corporate Highlights**

- · Net-Zero 1 Project: On August 7, 2023, Gevo announced that its Net-Zero 1 ethanol-to-jet project had been invited by the U.S. Department of Energy ("DOE") to the formal due diligence and term sheet negotiation phase for a \$950 million loan guarantee under the Title 17 Clean Energy Financing Program. The invitation to Gevo was provided based on the DOE's determination that Gevo's Net-Zero 1 Project is highly qualified and suitable for a loan guarantee from the DOE. DOE's invitation is not an assurance that DOE will issue a loan guarantee, which is wholly dependent on the results of DOE's review and determinations.
- Verity: Our Verity Tracker went live with our farmer partners in South Dakota and Minnesota this quarter. This tool will be used to measure, report and verify Carbon Intensity ("CI") through the entire value chain, inclusive of climate-smart agriculture practices. We believe the rollout of this software tool is a key milestone in implementation of our previously announced strategy to source low-carbon grain from farmers and reward them for their contributions to overall CI reduction. In addition to the previously announced joint development agreement with Southwest Iowa Renewable Energy (SIRE), we recently entered into a joint development agreement with a second ethanol producer in the Midwest that has over 100 million gallons of capacity to use Verity to track their ongoing ethanol production and implement Verity to incorporate regenerative agriculture practices to unlock carbon value for voluntary markets and federal tax credit opportunities.
- Ethanol-to-Olefins ("ETO") Technology: On April 12, 2023, Gevo announced it had entered into a joint development agreement with LG Chem, Ltd. ("LG Chem") a leading global chemical company to develop and scale up bio-propylene for renewable chemicals using Gevo's ETO technology. LG Chem is expected to bear all scale-up costs for chemicals and make certain payments to Gevo. In the second quarter of 2023, Gevo received \$1.3 million, before foreign taxes of \$0.2 million, and expects to receive an additional \$1.2 million over the next two years associated with the joint development efforts. In addition to this \$2.5 million from the joint development agreement, LG Chem agreed to make certain payments to Gevo upon commencement of commercialization, including royalties on net sales from future production volumes. ETO is a technology owned by Gevo that reduces the capital and operating cost to convert ethanol to olefins and enables selectivity to produce propylene as well as fuels.
- Renewable Natural Gas ("RNG"): Our RNG project in Northwest Iowa has been injecting into the pipeline since June 2022. We have successfully worked through the startup phase and the project has achieved strong performance against design capacity and onstream injection time this quarter, achieving on-stream injection of 97% and uptime of 91%. RNG revenue realized for the quarter from combined commodity and environmental attribute sales was \$2.9 million using the California Air Resource Board ("CARB") Low Carbon Fuel Standards ("LCFS") temporary pathway approval of -150 gCO2e/MJ CI. Final approval of our -350 gCO2e/MJ CI pathway submittal is expected in 2024. The capacity expansion from 355,000 MMBtu to 400,000 MMBtu is underway and proceeding as planned.
- USDA Grant: We recently received a Notice of Grant and Agreement Award from the USDA regarding the previously announced selection of Gevo's Climate-Smart Farm to Flight proposal for funding with an award ceiling of up to \$30 million. We expect to finalize the agreement soon. Gevo's project was one of the 70 projects selected by the USDA under the first pool of the Partnerships for Climate-Smart Commodities funding opportunity totaling \$2.8 billion.

## 2023 Second Quarter Financial Highlights

- · Ended the quarter with cash, cash equivalents, restricted cash, and marketable securities of \$425.5 million.
- · Revenue of \$4.2 million for the quarter primarily consists of RNG revenue and environmental attribute sales from Gevo's RNG project and licensing. During Q2 2023, we sold 77,789 MMBtu of RNG from our RNG Project, resulting in RNG commodity sales and environment attribute sales of \$2.9 million. Additionally, we realized \$1.3 million of licensing and development revenue from the agreement with LG Chem.
- · Combined revenue and interest income increased to \$9.3 million for the quarter.
- · Loss from operations of \$18.9 million for the quarter.
- · Non-GAAP cash EBITDA loss<sup>1</sup> of \$10.2 million for the quarter.
- · Gevo NW Iowa RNG generated positive, stand-alone non-GAAP cash EBITDA1 of \$0.4 million for the quarter.
- · Net loss per share of \$0.06 for the quarter.

<sup>1</sup> Cash EBITDA loss is a non-GAAP measure calculated by adding back depreciation and amortization and non-cash stock-based compensation to GAAP loss from operations. A reconciliation of cash EBITDA loss to GAAP loss from operations is provided in the financial statement tables following this release.

#### **Management Comment**

"We achieved several key milestones this quarter including a major inflection point in the financing of NZ1 by being invited into the full formal diligence and term sheet negotiation process for the DOE loan," said Dr. Patrick Gruber CEO. "The preliminary diligence process was highly selective and validates the hard work we have put into our proprietary Net-Zero plant designs and business model. We expect that the DOE process could take up to 12 months to be finalized, given all the consultants and complexities that they need to work through as part of their normal diligence, but this is a very exciting breakthrough for Gevo and our shareholders."

"Along with the progress on NZ1, I would also highlight that our RNG business is on target. As we continue to ramp up production, this quarter we achieved impressive year one performance against design capacity, with on-stream injection of 97% and uptime of 91%, demonstrating operating efficiency objectives. We also hit another milestone at Verity by launching a carbon tracking application for farmers to count CI scores on their fields and we have successfully tracked differences field by field, which is key for accurate CI tracking and validation in documenting credits. We have a deep bench of proprietary technology across several areas at Gevo including ETO technology and we also received our first licensing payment from LG Chem, demonstrating the potential of this technology in the Gevo portfolio."

Dr. Gruber concluded, "Gevo is a company with deep IP and know-how and I am excited to see the progress continuing and milestones met. Our evolution to a model focused on developing and licensing, in addition to investing is giving us a more optimized pathway to profitability as it reduces our need for our capital and enables accelerated growth without hindering our ability to invest directly in projects of our choosing. I believe we are at the convergence point of our technology portfolio and strong market tailwinds, giving our shareholders a unique seat at the table to leverage high-growth markets like sustainable aviation fuel ("SAF"), RNG, and CI tracking."

#### **Second Quarter 2023 Financial Results**

*Operating revenue.* During the three months ended June 30, 2023, operating revenue increased \$4.1 million compared to the three months ended June 30, 2022, primarily due sales of RNG and environmental attributes from our RNG Project. Sales under our RNG Project commenced in the third quarter of 2022. During the three months ended June 30, 2023, we sold 77,789 MMBtu of RNG from our RNG Project, resulting in revenue realized of \$2.9 million. Additionally, we recognized \$1.3 million of licensing and development revenue from the ETO Technology agreement with LG Chem.

Cost of production. Cost of production remained flat during the three months ended June 30, 2023, compared to the three months ended June 30, 2022. Production costs in 2023 are related to RNG production and sales, and lower costs from minimal production at our facility in Luverne, Minnesota (the "Luverne Facility") compared to the three months ended June 30, 2022, before it was put into care and maintenance.

Depreciation and amortization. Depreciation and amortization increased \$3.3 million during the three months ended June 30, 2023, compared to the three months ended June 30, 2022, primarily due to additional depreciation for RNG assets placed into service in 2022 and accelerated depreciation on Agri-Energy segment assets due to shorter lives stemming from the impairment assessment during the third quarter of 2022.

*Research and development expense.* Research and development expense remained flat during the three months ended June 30, 2023, compared to the three months ended June 30, 2022, primarily due to an increase in patent and personnel related costs, as well as lab work and supplies related to our ETO and other technologies, which was offset by a reduction of consulting expenses.

*General and administrative expense.* General and administrative expense increased \$1.9 million during the three months ended June 30, 2023, compared to the three months ended June 30, 2022, primarily due to increases in professional consulting fees and personnel costs related to the hiring of highly qualified and skilled professionals for our strategic projects, including Net-Zero Projects, as well as the Verity and DOE programs.

*Project development costs.* Project development costs are related to our future Net-Zero Projects and Verity which consist primarily of employee expenses, preliminary engineering and technical consulting costs. Project development costs increased \$0.7 million during the three months ended June 30, 2023, compared to the three months ended June 30, 2022, primarily due to increases in personnel costs and consulting fees.

*Facility idling costs*. Facility idling costs of \$1.0 million for the three months ended June 30, 2023, are due to the care and maintenance of our Luverne Facility. We plan to utilize the Luverne Facility as a development scale plant to advance our technology

and operational knowledge to help us in achieving operational success as we scale up the production and delivery of hydrocarbons and chemical products for our customers and partners.

Loss from operations. Our loss from operations increased by \$2.8 million during the three months ended June 30, 2023, compared to the three months ended June 30, 2022, primarily due to the increased activities for our Net-Zero Projects and Verity. See explanations for each line item above.

*Interest expense*. Interest expense increased \$0.5 million during the three months ended June 30, 2023, compared to the three months ended June 30, 2022, primarily due to the interest on the 2021 Bonds, which was capitalized into construction in process during the construction phase of our RNG Project in the prior periods.

*Interest and investment income.* Interest and investment income increased \$5.0 million during the three months ended June 30, 2023, compared to the three months ended June 30, 2022, primarily due to an increase in interest earned on our cash equivalent investments as a result of higher interest rates.

*Other income*. Other income decreased \$2.9 million for the three months ended June 30, 2023, compared to the three months ended June 30, 2022, primarily due to the receipt of \$2.9 million from the US Department of Agriculture's Biofuel Producer Program in 2022.

During the six months ended June 30, 2023, net cash used for operating activities was \$29.4 million compared to \$17.2 million for the six months ended June 30, 2022. Non-cash charges primarily consisted of depreciation and amortization of \$9.3 million, stock-based compensation expense of \$8.6 million, and other non-cash expense of \$0.4 million, partially offset by non-cash amortization of discounts on marketable securities of \$0.1 million. The net cash outflow from changes in operating assets and liabilities increased \$13.3 million, primarily due to increased cash outflows of \$10.9 million in prepaid expenses and other current assets due to deposits to secure long-lead equipment power transmission and distribution facilities for NZ1, \$2.2 million of accounts payable, and \$1.3 million related to decreases in accounts receivable. These were partially offset by \$1.0 million of decreased costs associated with the sale of environmental attribute inventory.

#### **Webcast and Conference Call Information**

Hosting today's conference call at 4:30 p.m. ET will be Dr. Patrick R. Gruber, Chief Executive Officer, L. Lynn Smull, Chief Financial Officer, and Dr. Eric Frey, Vice President of Finance. They will review Gevo's financial results and provide an update on recent corporate highlights.

To participate in the live call, please register through the following event weblink: https://register.vevent.com/register/BI82de9cfb93c4451496d83261acc6dc07. After registering, participants will be provided with a dial-in number and pin.

To listen to the conference call (audio only), please register through the following event weblink: https://edge.media-server.com/mmc/p/aqorx2re.

A webcast replay will be available two hours after the conference call ends on August 10, 2023. The archived webcast will be available in the Investor Relations section of Gevo's website at www.gevo.com.

#### **About Gevo**

Gevo's mission is to transform renewable energy and carbon into energy-dense liquid hydrocarbons. These liquid hydrocarbons can be used for drop-in transportation fuels such as gasoline, jet fuel, and diesel fuel, that when burned have potential to yield net-zero greenhouse gas emissions when measured across the full lifecycle of the products. Gevo uses low-carbon renewable resource-based carbohydrates as raw materials, and is in an advanced state of developing renewable electricity and renewable natural gas for use in production processes, resulting in low-carbon fuels with substantially reduced carbon intensity (the level of greenhouse gas emissions compared to standard petroleum fossil-based fuels across their lifecycle). Gevo's products perform as well or better than traditional fossil-based fuels in infrastructure and engines, but with substantially reduced greenhouse gas emissions. In addition to addressing the problems of fuels, Gevo's technology also enables certain plastics, such as polyester, to be made with more sustainable ingredients. Gevo's ability to penetrate the growing low-carbon fuels market depends on the price of oil and the value of abating carbon emissions that would otherwise increase greenhouse gas emissions. Gevo believes that it possesses the technology and know-how to convert various carbohydrate feedstocks through a fermentation process into alcohols and then transform the alcohols into renewable fuels and materials, through a combination of its own technology, know-how, engineering, and licensing of technology and engineering from Axens North America, Inc., which yields the potential to generate project and corporate returns that justify the build-out of a multi-billion-dollar business.

Gevo believes that Argonne National Laboratory GREET model is the best available standard of scientific based measurement for life cycle inventory or LCI.

#### **Forward-Looking Statements**

Certain statements in this press release may constitute "forward-looking statements" within the meaning of the Private Securities Litigation Reform Act of 1995. These forward-looking statements relate to a variety of matters, including, without limitation, the timing of our NZ1 project, the agreement with LG Chem, the selection of an EPC contractor, timing regarding an EPC contract, the DOE process and timing, the success of Verity and Verity Tracking, our financial condition, our results of operation and liquidity, our business plans, our business development activities, our Net-Zero Projects, financial projections related to our business, our RNG project, our fuel sales agreements, our plans to develop our business, our ability to successfully develop, construct and finance our operations and growth projects, our ability to achieve cash flow from our planned projects, the ability of our products to contribute to lower greenhouse gas emissions, particulate and sulfur pollution, and other statements that are not purely statements of historical fact These forward-looking statements are made based on the current beliefs, expectations and assumptions of the management of Gevo and are subject to significant risks and uncertainty. Investors are cautioned not to place undue reliance on any such forward-looking statements. All such forward-looking statements speak only as of the date they are made, and Gevo undertakes no obligation to update or revise these statements, whether as a result of new information, future events or otherwise. Although Gevo believes that the expectations reflected in these forward-looking statements are reasonable, these statements involve many risks and uncertainties that may cause actual results to differ materially from what may be expressed or implied in these forward-looking statements. For a further discussion of risks and uncertainties that could cause actual results to differ from those expressed in these forward-looking statements, as well as risks relating to the business of Gevo in general, see the risk disclosures in the Annual Report on Form 10-K of Gevo for the year ended December 31, 2022 and in subsequent reports on Forms 10-Q and 8-K and other filings made with the U.S. Securities and Exchange Commission by Gevo.

#### **Non-GAAP Financial Information**

This press release contains a financial measure that does not comply with U.S. generally accepted accounting principles (GAAP), including non-GAAP cash EBITDA loss. Non-GAAP cash EBITDA loss excludes depreciation and amortization and non-cash stock-based compensation from GAAP loss from operations. Management believes this measure is useful to supplement its GAAP financial statements with this non-GAAP information because management uses such information internally for its operating, budgeting and financial planning purposes. This non-GAAP financial measure also facilitates management's internal comparisons to Gevo's historical performance as well as comparisons to the operating results of other companies. In addition, Gevo believes this non-GAAP financial measure is useful to investors because it allows for greater transparency into the indicators used by management as a basis for its financial and operational decision making. Non-GAAP information is not prepared under a comprehensive set of accounting rules and therefore, should only be read in conjunction with financial information reported under U.S. GAAP when understanding Gevo's operating performance. A reconciliation between GAAP and non-GAAP financial information is provided below.
