**Item 5.02. Departure of Directors or Certain Officers; Election of Directors; Appointment of Certain Officers; Compensatory Arrangements of Certain Officers.**

Effective August 1, 2021, the Board of Directors (the “Board”) of Gevo, Inc. (“Gevo” or the “Company”) approved the appointment of Jaime Guillen to the Board as a Class II director, with a current term that will expire at the annual meeting of stockholders to be held in 2024. Mr. Guillen will receive an annual cash retainer of \$50,000 and an annual equity grant valued at \$75,000 for service as a non-employee director, subject to the Company’s compensation policy for non-employee directors as specified from time to time by the Board. The equity award will be made pursuant to the Company’s Amended and Restated 2010 Stock Incentive Plan. Mr. Guillen will also be eligible to receive annual grants of equity and other compensation consistent with the Company’s compensation policy for his service as a non-employee director, as specified from time to time by the Board. Mr. Guillen also entered into the Company’s customary form of indemnification agreement upon his appointment to the Board.

There are no understandings or arrangements with any person pursuant to which Mr. Guillen was selected as a director, and Mr. Guillen is not party to any related party transaction required to be reported pursuant to Item 404(a) of Regulation S-K.

The Board considered the independence of Mr. Guillen under The Nasdaq Stock Market LLC (“Nasdaq”) listing standards and concluded that Mr. Guillen is an independent director under the applicable Nasdaq standards.

### Gevo Adds Jaime Guillen to Board of Directors

**ENGLEWOOD, Colorado – August 2, 2021 – Gevo, Inc. (NASDAQ: GEVO)** announced today the appointment of Jaime Guillen to its Board of Directors. Mr. Guillen is a Managing Partner at Faros Infrastructure Partners LLC, an investment firm with offices in United Kingdom, United States and Mexico. Mr. Guillen is also the Head of Asset Management for Mexico Infrastructure Partners and has approximately 30 years of experience in equity investments, project finance, project development, commercial contract negotiations, and company operations in a variety of sectors including energy, transport, natural resources, private equity and fund management. Earlier in his career, Mr. Guillen worked for major international firms including as Chief Executive Officer of Alterra Partners, Managing Director for Bechtel Enterprises and as a Vice President of Bechtel Financing Services. Mr. Guillen currently serves as the Chairman of the Board of Directors of Polaris Infrastructure Inc. (TSX: PIF), a Toronto-based publicly listed company engaged in the operation, acquisition and development of renewable energy projects in Latin America.

"I am very pleased to announce Jaime's appointment to the board," said Dr. Patrick Gruber, Gevo's Chief Executive Officer. "He brings significant expertise in the areas of infrastructure development, investment, financing and operations experience globally, which is highly relevant to Gevo as we continue the development of our Net-Zero and other projects."

## About Gevo

Gevo's mission is to transform renewable energy and carbon into energy-dense liquid hydrocarbons. These liquid hydrocarbons can be used for drop-in transportation fuels such as gasoline, jet fuel and diesel fuel, that when burned have potential to yield net-zero greenhouse gas emissions when measured across the full life cycle of the products. Gevo uses low-carbon renewable resource-based carbohydrates as raw materials, and is in an advanced state of developing renewable electricity and renewable natural gas for use in production processes, resulting in low-carbon fuels with substantially reduced carbon intensity (the level of greenhouse gas emissions compared to standard petroleum fossil-based fuels across their life cycle). Gevo's products perform as well or better than traditional fossil-based fuels in infrastructure and engines, but with substantially reduced greenhouse gas emissions. In addition to addressing the problems of fuels, Gevo's technology also enables certain plastics, such as polyester, to be made with more sustainable ingredients. Gevo's ability to penetrate the growing low-carbon fuels market depends on the price of oil and the value of abating carbon emissions that would otherwise increase greenhouse gas emissions. Gevo believes that its proven, patented technology enabling the use of a variety of low-carbon sustainable feedstocks to produce price-competitive low-carbon products such as gasoline components, jet fuel and diesel fuel yields the potential to generate project and corporate returns that justify the build-out of a multi-billion-dollar business.

Gevo believes that the Argonne National Laboratory GREET model is the best available standard of scientific-based measurement for life cycle inventory or LCI.
